MISCELLANEOUS

Mr. Campbell reported that 6 deer have been harvested by deer damage permits, 129 by hunting permits for a total of 135 so far this year. He said that 91 hunting permits have been issued. Mr. Campbell said this is up from the same time last year.

Mr. Kasaris asked about the illuminated stop sign that has been installed at the Ridge and Akins Road intersection. Mr. Campbell said that this goes back to several complaints we have had over the years about accidents at this intersection. He said that we had NOACA perform a signal warrant analysis and their study indicated that a traffic light was not warranted for this intersection. It currently has a flashing light. As a test, we thought we would work with our traffic unit and install the illuminated flashing stop sign. He said they are self-contained, solar powered and battery operated. Mr. Kasaris asked how long a battery will last. Mr. Campbell said that without sun, they are unsure, but otherwise they should last for about 3 years. Mr. Kasaris asked for the cost of these signs. Mr. Campbell said they are \$1,800 each. He said that a traffic light would cost more than \$100,000.
