YOUTH SOCCER: Guy DiSisna

A discussion was brought up about condition of fields. Pictures were submitted showing large areas of dirt with no grass. Soccer club would like field to be filled with dirt where needed, aerated, seeded and fertilized more often to get fields back in condition like they used to be.

The club understands that budget and man hours have been cut, but is wondering what they can do to help (Hire out fertilizing, volunteer and public and business backing).

Tony S. stated that this is the first this has been brought to the attention of Recreation board and if there are issues like this it needs to be addressed by soccer club to the Recreation board and not just expect board to know these field problems. Jason Swim Recreation Director said he is working on a program for the fields.
